Grand Vocal Contest \$70 in PRIZES

On Easter Monday, April 17, in the Opera house, Coleman, under the auspices of the Central Baptist Church, Blairmore, will be given a Grand Vocal Contest. Madam Bessie Evans-Duggan, of the Royal Academy of Music, London, will render solos and act as adjudicator. Contestants are coming from Bellevue, Blairmore and Coleman, also Pincher Creek. Lovers of good music and singing, should make a point of being present.

St. Alban's Church of England

By request of the Bishop of Calgary, the Rev. A. B. N. Crowther, M. A. (Oxford) who has been at Michel for the past two years is in Coleman and will hold services at St. Alban's Church on Easter Sunday morning, April 16th, at 11 A. M. and will also hold service in the evening at 7 o'clock P. M. All members of the Church and friends are cordially invited to be present. There will be a celebration of the Holy Communion at the morning service.

Alick Lauder To-Night

Mr. Alick Lauder who visits on Friday next is the younger brother of the famous Harry Lauder, who has made the name popular all over the world. Around the mining district of Hamilton, Scotland, the Lauder family have always had a reputation for songs, story and comedy. Harry and Alick's services always being in great demand on all festive occasions. In feature and style they resemble each other, and there is no doubt that Harry owes much of his earlier success to the coaching of his younger brother Alick who helped him in many ways, supplying him on occasions with original songs and comedies. The Scotch drolleries, which afterwards stood him in good stead. Just at the time Harry finally decided to adopt the stage as a profession, Alick received a tempting offer from a London firm to go gold prospecting and although he had a lingering towards the profession also, he accepted the offer, for as he said, "A bird in hand is worth two in the bush" and he spent two years in the Sudan and Gold Coast, and amongst the many dangerous and humorous experiences encountered during his mining days would fill a book of itself, and after many novel and exciting experiences in other parts of the world, he eventually gave up the mining and roving life, and took to his first love, the Concert and Music Hall, and though only four years in the work, he has made a name for himself in the London Music Halls, and is looked upon as second only to his brother Harry. As a Scottish comedian and entertainer. This will no doubt be one of the greatest attractions that ever came to this side of the water.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from fruit sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for cold, croup and whooping cough, and all ailments.

Given Three Days Grace

The mine owners and men have been given three days grace. This is due to the fact that the mine workers executive is scattered and that it will take until Thursday to assemble them at Fernie. A. J. Carter, secretary of District No. 8 telegraphed the minister of labor this morning stating that it was proposed to hold a mass meeting of the association at Fernie Thursday afternoon, and asking him to be good enough to refrain from appointing a royal commissioner until the meeting decides upon a line of action.

Under the circumstances Hon. Mr. King feels it incumbent upon him to meet the request. It must be understood a royal commission investigating the trouble between the operators and workers would have no authority to enforce any ending. The commission will enquire solely in the interests of the public, which is being greatly inconvenienced by the stubbornness of one or both sides. The alienation of public sympathy from the party which is in the wrong will, it is felt, lead to a speedy termination of the trouble.

Operators Court Full Inquiry

The Western Coal Operators' association held a meeting in Frank and Monday last and received the following telegram to Hon. W. L. Mackenzie King, minister of labor, at Ottawa:

"Mr. J. D. McNeven has handed the Western Coal Operators' association copies of your telegrams dated April 3 and 7. From the tenor of your telegrams and press reports of your remarks in the house on Friday, we feel that you are not fully informed as to the action taken by the operators. At the conference held at Calgary on March 23, when it was found an agreement seemed impossible, the operators proposed that all matters in dispute be submitted to a board of arbitration for final adjustment, offering to bind themselves to accept as final and be bound by any decision arrived at by the board. Meantime, the miners were to be operated and the miners to work, and any decision arrived at to be applicable from April 1. This proposition was immediately refused by the miners and while it remained open the miners still refused to accept the same. We have not caused a lockout, having kept the mines open for work, but the miners have struck in violation of the act."

We have been always willing and eager for any board that would assist in a settlement or make the public fully aware of the real situation. Considering the proposition we have already made, offering full arbitration, we are of the opinion that we have gone as far as we can in the matter. Should the miners make application for a board we would welcome the same, failing their doing so, we court the fullest investigation by any court you may appoint. (Signed) Western Coal Operators' association.

English cup finals will be played at the Crystal Palace on Saturday, April 22nd, between Newcastle United and Bradford City.

Meeting of Council

A meeting of the Town Council, was held on Tuesday evening last, in the council chamber. Present, Mayor Cameron, Councillors McDonald, Holmes, James and Morrison.

Morrison—Holmes—That a committee be formed of the whole council for the purpose of reading by-law No. 6, carried. The by-law having been read clause by clause and passed, was read a third time and ordered to be published in two consecutive issues of the Coleman Miner.

A communication received from the Board of Trade, thanking the council for their donation was read.

A communication from Fire Chief Graham, tendering his resignation to take effect in 30 days was read.

Holmes—McDonald—That resignation Fire Chief be accepted. Councillor James stated that the Fire Chief had dismissed men and that the committee had not interfered with him in any way, and therefore was in favor of accepting his resignation. Carried.

James—Morrison—That the fire committee have full power to act in selecting another fire chief. Carried.

Councillor Holmes reported that in view of the fact that the culvert was near completion, that 4th street be put in shape right now and be prepared for traffic. The works committee had seen to it, and got an estimate of \$450.00 for repairing and grading the street the same width as the culvert.

James—McDonald—That the matter of fixing 4th street be left in the hands of the board of works, with power to act. Carried.

ROAD TO WEST COLEMAN

Councillor Morrison asked if there had been any reply from Uren of Cragsbrook, with regard to the matter of the road. He thought it was nearly time something was done, and he moved that another letter be sent to Mr. Uren, informing him that the council would have to refer the matter to Mr. White, vice-president of the C.P.R. or appeal to the Railway Commissioners.

The Mayor said he could not understand why they had not received some communication and he appointed a committee consisting of Councillors Holmes and Morrison to draft up a letter and have the Secretary write to Mr. Uren, officially.

Councillor James endorsed the remarks of Councillor Morrison and the motion was carried.

Councillor McDonald suggested that a communication be sent to Mr. Flamerfelt also.

McDonald—Morrison—That By-law No. 7, be introduced. This by-law, which deals with the health of the town, is a lengthy affair, after being read a first time, the meeting adjourned. Carried.

Boxing Contest

On Easter Monday, April 17th a great boxing contest will take place at Fernie, B. C. The combatants being Jack Pigeon of Crow's Nest and Alf Dragon, of Coleman. Dragon has been training ever since the contest at Frank and is in much better trim for the fray. He expects to win. But Pigeon will have something to say about that.

Home For Girls From Country

Montreal April 10.—In this great city of Montreal there is an over-increasing army of wage earning women. These girls and women are employed in schools, offices, shops, private homes and other places too numerous to mention. They pour into our city from the country districts of Canada from the smaller towns and villages. They come across the ocean from the Motherland, and, in small numbers, from the south. Here they gather to work and to live. They have to work, and they have to live as best as they can.

Further than accepting freely of their work Montreal has, thus far, done little for this class of her population. And Montreal is just beginning to realize that she is in debt. Shortly before Sir Thomas Shaughnessy went aboard a few gentlemen, most of them in the ever expending millionaire class, sat in the smoking room of the Mount Royal Club. The question of society's duty to the working girl arose. The President of the Canadian Pacific jumped to his feet, placed the room a couple of times and thus expresses himself: "The young men of our day have everything. They have club houses, they have well stocked reading rooms, they have comfortable and convenient meeting places. Our young women hear the bustle and roar of business about ears nine hours a day for six days a week. The rest of the time they spend in the back hall bed room of a boarding house thinking about it. The more pleasant and quite you can make your employees' surrounding the more cheerful work you can get out of them. We consider money well spent on the C. P. R. if we can eliminate noise thereby. The other day I had several noiseless typewriters installed. Some of the girls objected because the touch did not suit them. Some genius invented an attachment which made the touch similar to any standard machine. Stenographer happened to be accustomed to it. It cost us money and it cost the typewriter people money to make the change, but the change took a useless click out of life. If a man would invent an attachment that would make a train noiseless I would have it if it costs a fortune. It's the bumps and clicks of the day's work that makes us weary."

It was this little speech spoken on the spur of the moment, which sowed the seed for larger things. A real home for working women was suggested, a home embodying all that dear word really means. Those same millionaires got their heads together, and architect and a contractor were summoned, plans and specifications were called for, inquiries were made as to how other cities coped with the problem, and the ball was set rolling. Montreal is to have a million dollar hotel exclusively for women. It will be an Adamless Eden so to speak, and as unique and tranquil in many ways as the one only and original Eden. It will be built either on Sherbrooke Street, opposite the Royal Victoria College or on Dorchester Street, not far from the Y. M. C. A. Building.

Speculation

The speculative tendency of the present day, based, as it is chiefly, upon a desire to get something for nothing, is detrimental to the best interests of the people as a whole. This tendency manifests itself in various walks of life. Speculation, to be successful, must be associated with the buying and selling of something for which there is a demand. Naturally this makes the common necessities of life the most profitable field of exploitation and speculation. Supply and demand, under ordinary circumstances, are supposed to be the chief factors in regulating the prices of any commodity. However they are not the only means. The immense combinations of capital accumulated under the present system of Special Privilege is a powerful factor in controlling markets. We are all familiar with the methods of the big stock gamblers of Wall Street, which the mounted interests have secured control of transportation facilities of United States, and in fact exercise a dominant influence in national affairs. The advantages gained by these interests are due to their ability to raise or depress the market of stocks at will. We have seen somewhat similar effects from the operations of the option market in the Chicago wheat pit. There it was the people's bread that was being manipulated on the market. There is always a market value in it, though it may vary greatly from day to day. The chief sufferers from such manipulation are the producers and consumers of wheat and bread. To the farmer the price is reduced and to the latter enhanced. In Germany the state has stepped in and prohibited option trading, upon pain of penalty. In that country no person may sell unless he has the article to deliver. In Canada option trading in cheese and butter has also been prohibited by law. There are many thoughtful people who regard option trading in any food products as a distinct menace to the community concerned. This feeling is manifesting itself in a desire that the entire system of option trading in wheat be investigated. The rising and falling of the market price of wheat in the Winnipeg Grain Exchange would furnish an opportunity for investigation. Is it possible that large financial combinations are manipulating the market for their own benefit and thus increasing the cost of bread to the consumer? Combinations of capital that have the power to influence the market prices of food products have also the power to reduce or eliminate competition in the buying and selling of such products. This tendency towards monopoly is one which today is being watched by the people.

By-law No. 6

A By-Law to Prevent Children being on the Street at Nightfall.

Whereas by a duly certified petition representing at least one half of the resident ratepayers of the Municipality of the Town of Coleman, praying for the passage of a By-law regulating the time after which children, boys and girls, under the age or apparent age of sixteen (16) years of age, shall be off the streets and in their homes, unless they are in charge of their parents or other proper guardian after the hour of eight-thirty (8.30) o'clock P. M., during the months of October, November, December, January, February, March and April, and the hour of nine-thirty (9.30) o'clock P. M., during the months of May, June, July, August and September of each year.

Now therefore it is hereby enacted by the Municipal Council of the Town of Coleman as follows:

1st.—That all children, boys and girls, under the age or apparent age of sixteen (16) years, shall be off the streets and in their homes without being in charge of their parents or other proper guardian after the hour of eight-thirty (8.30) o'clock P. M., during the months of October, November, December, January, February, March and April, and the hour of nine-thirty (9.30) o'clock P. M., during the months of May, June, July, August and September of each year.

2nd.—That any child found on the public streets and who refuses to comply with the provisions of section one (1) of this By-law shall be guilty of a misdemeanor and shall be confined in the town Jail or Jail for a period not exceeding twenty-four (24) hours.

3rd.—That the parent or guardian of any child found upon the public streets and who refuses to comply with the provisions of section one (1) of this By-law shall be liable to a fine not exceeding ten Dollars (\$10.00) and costs, and upon failure to pay said fine and costs shall be confined in the town Jail or Jail until said fine and costs are paid at the rate of One Dollar (\$1.00) per day.

4th.—That there shall be hung at or upon the time appointed a bell to be called "TWO O'CLOCK BELL" to warn the children to be off the streets and in their homes as herein before provided.

Dated and passed in Council this eleventh day of April 1911.

Pincher Creek Notes

A. Pelletier, breeder and dealer in horses, will move his family into town for the summer from his ranch just outside of town.

The Misses Alice and Katie Tobin, of Tennessee, Idaho, arrived here on Saturday last and were followed on Sunday by Messrs. James and John Tobin. One of the last named is the head contractor for the construction of the Beaver Creek branch of the Kootenay and Alberta road, and one of the ladies named will oversee the arrangement of supplies for the same and issue the cheques for all expenditure and payments of every kind. With the arrival of these parties it is conjectured that the work of building the branch line named will be proceeded with immediately.

Harry Kanouse came down from Coleman Friday night on a visit to his brother and sister-in-law.

With a couple of weeks of the weather we are enjoying in these parts the snow will soon disappear. The roads in the country are said to be in a rough condition at present.

Mr. and Mrs. E. T. Saunders have moved into town from their ranch. The former has been busy getting a lot of new machinery for his printing plant in the Echo office into shape within the past two weeks.

PHOSPHONOL

(The Electric Restorer)

MAKES WEAK MEN

STRONG

PHOSPHONOL restores every nerve in the body to its normal tension. Nerves that have been dormant for years will vibrate once more with vigor. Two boxes of PHOSPHONOL have been known to make weak men feel as they did at eighteen.

Weakness is converted into strength where PHOSPHONOL is used; one machine decay is impossible; sexual weakness is converted into strong manhood, both physically and mentally.

PHOSPHONOL is your medicine, regardless of your condition or age.

PHOSPHONOL is a new remedy prepared upon purely scientific principles, by expert chemists. It produces results.

PHOSPHONOL promptly dispels all forms of nerve weakness, such as lack of control, twitching of nerves and muscles, despondency, mental worry, blues, indecision, weak heart and impoverished blood.

Price: \$3.00 a box, or two boxes for \$5.00. We will mail this to any address under separate cover on receipt of price. THE PHOSPHONOL DRUG CO., St. Catharines, Ont.

The Man With

A Millstone

About His Neck

The millstone is a

special training. It holds

one man down to hard work

and small wages while

others, properly trained, go

ahead. But every man and

woman who is laboring

under such a burden can

easily rise to a better position

and increased earnings

and can find out how for

the asking.

To find out how, simply

write the I.C.S., stating

the position you wish to

gain. In return, an institution

with 17 years of successful

experience in training

thousands of others for

advancement will tell you

how it can be done. No books to

buy. Just send a check for

advancement worth this

much to you?
